BEFORE THE STATE CORPORATION COMMISSION

OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE REGULATION OF RATES, TERMS AND CONDITIONS FOR THE PROVISION OF POLE ATTACHMENT SPACE TO CABLE TELEVISION SYSTEMS BY TELEPHONE COMPANIES.

FILED/ACCEPTED

APR 2 6 2010

DOCKET FILE COPY ORIGINAL

July Barrie

1,2,2,2,2, 2, 50

Federal Communications Commission Office of the Secretary

Docket No. 1651

ORDER

- 1. At the present time, various cable television systems within the State of New Mexico attach their cables to existing utility poles owned by the telephone companies in the State of New Mexico subject to the jurisdiction of this Commission. Historically, the terms, conditions and rates for use of this space by cable television systems on telephone company poles have been the subject of private negotiations and written agreements between the affected utilities and the cable systems.
- 2. In 1978, an amendment to the Federal Communications Act (47 U.S.C. §224) was enacted whereby Congress granted regulatory jurisdiction over cable television pole attachments to the Federal Communications Commission in those states which did not exercise such regulation. Under this statute, a state may regulate the rates, terms, and conditions for pole attachments upon certification to the Federal Communications Commission that it does, in fact, regulate such rates, terms and conditions and that, in so regulating, the State has the authority to consider and does consider the interest of the subscribers of cable television services, as well as the interests of the consumers of the utility services.

- 3. By virtue of N.M. Const., Art. XI, §7, the State Corporation Commission of New Mexico (SCC) has the general and exclusive power to regulate and supervise telephone companies, within the State. Moreover, N.M. Const., Art. XI, §7 places within the jurisdiction of the SCC the responsibility to set rates for services provided by telephone companies at just and reasonable levels and generally in accordance with law.
 - 4. N.M. Const., Art. XI, §7 provides, in part, the following:

...in the matter of fixing rates of telephone and telegraph companies, due consideration shall be given to the earnings investment and expenditure as a whole within the State.

- 5. Clearly, the provision by the New Mexico telephone companies of attachment space on their utility poles to cable television systems constitutes the rendering of a service for consideration, to these cable telephone systems. There can be no doubt that the utilization by cable television systems of telephone company poles has resulted in substantial and direct benefit to the cable television systems. Similarly, the uitility poles owned by a telephone company are clearly facilities of that company which are made available for use by various customers, including cable television systems.
- 6. The SCC's jurisdiction over New Mexico's telephone companies also extends to their poles, which are an integral part of their facilities. Regulation of the service of providing pole attachment by telephone companies is necessary in the public interest in that all utility facilities should be operated to produce the optimal results to both utility and its subscribers who should pay a fair, just and reasonable rate for service received. The SCC is aware that revenue received by telephone companies from such sources as pole attachment rates reduces the revenue that must be earned from conventional utility services, thereby lowering the utility consumer's overall rate. Moreover, regulation of pole attachment rates by the SCC will enable the SCC to establish rates for such pole attachments that are compensatory and do

not result in the subsidization by telephone subscribers of cable television systems while, on the other hand, insuring that the cable television systems pay a fair and reasonable rate for the service they are provided in the form of pole attachments.

O Property Co

The SCC, pursuant to N.M. Const., Art. XI, §7 is specifically empowered to investigate rates for service provided by public utilities and to fix such rates as it shall determine to be just and reasonable and in compliance with law.

IT IS THEREFORE ORDERED THAT:

3. This Order is effective immediately.

- All telephone utilities regulated by the SCC which provide full attachment space for cable television systems shall file tariffs setting forth the rates, terms and conditions for such pole attachments.
- The SCC shall certify to the Federal Communications Commission that the SCC regulates pole attachment rates, terms and conditions, and that the SCC has the authority to consider, and does consider, the interests of the subscribers of cable television systems as well as the interests of the consumers of the telephone utility services, as provided in 47 U.S.C. §224(C)(2).

DONE this _____ day of June, 1982, at Santa Fe, Mew Mexico. FAIC P. SERNA, Chairman JOHN A. ELLIOTT, Commissioner JIMMIE W. GLENN, Commissioner

ATTEST:

Richard I. Harris, Chief Clerk

BEFORE THE NEW MEXICO STATE CORPORATION COMMISSION

IN THE MATTER OF THE REGULATION OF RATES, TERMS AND CONDITIONS FOR THE PROVISION OF POLE ATTACHMENT SPACE TO CABLE TELEVISION SYSTEMS BY TELEPHONE COMPANIES.

DOCKET NO. 1051

ORDER

An order regarding the regulation of pole attachment rates was previously entered in this matter. The Commission, upon its own motion, has decided to withdraw that order and set this matter for a hearing.

DONE this OTE day of September, 1983
